The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 7 and 11 are directed to a method of inhibiting blood coagulation in a patient in need thereof comprising administering to said patient a ZPI coagulation inhibitor of specific amino acid sequence.

Claimed ZPI coagulation inhibitor is free of prior art. Further, the prior art does not suggest such specifically claimed product. Hence, said ZPI is also non-obvious. Since ZPI is both novel and non-obvious, its claimed method of use is also novel and non-obvious.

Claims 7 and 11 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
